

NATURAL SOY CANDLE PRODUCT SHEET

PRODUCT NAME	NATURAL SOY CANDLE
SIZE / BURN TIME	10ml e 0.03 fl oz. UP TO 40 HRS
COUNTRY OF ORIGIN	AUSTRALIA

Awaken your senses and enhance any room with the Silk Natural Soy Candle. Natural Soy Wax is blended with quality Australian Made fragrances to provide a delicately scented burn for up to 40 hours. This elegant candle is hand poured in Australia, supplied in stunning rose gold glassware and is beautifully boxed to provide the perfect gift for any occasion.

Benefits:

- Handmade in Australia with individual love & attention to detail
- Quality Australian Made fragrances
- High quality non-toxic wax
- Natural lead-free cotton wicks
- Long burning with a medium to strong scent throw

Benefits of Soy:

Soy wax candles, made by hydrogenating the oil of the soybean vegetable, are the preferred base for high quality candles today although many leading brands still use paraffin wax. Soy candles burn clean, produce less black soot or smoke and generally burn up to 50% longer than traditional paraffin wax candles. Furthermore, soy wax is biodegradable and cleans up with soap and water. Coupled with premium fragrance, Silk fragranced natural soy candles create an idyllic ambience in the home or office.

- Soy is natural, non-toxic and biodegradable – unlike traditional paraffin which is a petro-chemical
- Soy is renewable and sustainable. It's farmed and can be replaced faster than its rate of consumption with no damage to the ecosystem
- Silk soy is pure and natural, it's independently tested by accredited laboratories and certified to contain no pesticides or herbicides and is free of genetically modified materials
- Soy burns slower than paraffin wax with up to 50% more burn time
- Soy burns cooler than paraffin and beeswax and is therefore safer – particularly for use around children
- Unlike paraffin, soy wax is water soluble and can be cleaned with hot soapy water if spilled
- Soy is clean burning, meaning it will not stain or blacken home surfaces
